

## WE'RE LOOKING FOR:

# Laboratory employee (m/f/d)

### What you will do for us:

- › Control of raw materials / merchandise / own production
- › Documentation of analysis results; IT-supported
- › Maintenance and care of laboratory equipment / facilities
- › Management of a retained sample warehouse

### What you should bring with you:

- › Successfully completed training as a chemical laboratory technician, materials tester, chemical technician, chemical technical assistant or building materials tester
- › Good written and spoken German
- › Basic knowledge of English
- › Several years of experience in the field of analytics; activated carbon analysis desirable, but not mandatory
- › Observation accuracy and sense of responsibility
- › Experience in using Microsoft Office and SAPQM
- › Technical interest and analytical thinking
- › Ability to work in a team

### What do we offer:

- › Competitive salary
- › 30 days paid vacation per year
- › Employer-funded pension
- › High-quality and modern work equipment, also in the home office
- › Parking in front of the door / Excellent public transport connections
- › An exciting and responsible task in cooperation with a motivated team
- › Flat hierarchies and quick decision-making
- › The possibility of constant further development and room for your own ideas
- › Complimentary water, coffee and fresh fruit at work

### Who we are:

The CarboTech Group, a company of the ICI Group, is a leading medium-sized supplier and producer of adsorbents used to keep the environment clean, primarily in chemical, water and wastewater treatment as well as in ventilation and air conditioning technology..
